Project Demo Planning

Date	29 September
Team ID	6ab2ac2a1266c775575a9e56
Project Name	Farm Management System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Farm Management System and explain the problems of manual farm record management, data organization, and difficulty in maintaining farmer, crop, buyer, and sales information.	2	Subiksha A
2	Solution Overview	Explain how the Salesforce-based Farm Management System provides a centralized platform for managing farm-related records using Salesforce objects, fields, relationships, automation, and user access.	2	Swathy S
3	Live Feature Demonstration	Demonstrate the main features of the system, including Farmer Management, Crop Management, Buyer Management, Product Management, Sales Management, record creation, updating records, and viewing related information.	5	Suseetha S
4	Data & Salesforce Configuration	Demonstrate the configured Salesforce objects, fields, relationships, validation rules, flows, page layouts, and sample farm-related records.	3	Vaishnavi S
5	Conclusion & Key Benefits	Summarize the project, explain its benefits such as centralized data management, reduced manual work,	2	Subiksha A

		organized records, and improved farm management.

Demo Flow Summary:

Step	Activity Notes
1	Introduction & Problem Statement - Introduce the project and explain the challenges in managing farm information manually.
2	Solution Overview - Explain the Salesforce-based solution and how it manages farm-related information in a centralized system.
3	Live Feature Demonstration - Show the actual Salesforce application and demonstrate farmer, crop, buyer, product, and sales records and related features.
4	Q&A Session - Answer questions from the staff regarding the system, Salesforce configuration, features, and project implementation.
