Project Name	Farm Management System
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throug Yes		Consistent indentation and formatting are followed throughout the code.
2	Proper File Structure	Files and folders are logically organized	Yes Frontend, backend and configuration files are	organized into separate folders.
3	Function / Method Names	ble Names Variables reflect their	Yes Variables and functions use descriptive	names.
4	Code Comments	Functions are descriptively	Yes Functions are named according to their	purpose.
5		named	Yes Comments are added where required to	explain important logic.
		Inline and block comments explain logic		

6	Modular Design	Code is split into reu functions/mo	Yes Application is divided into reusable modules and components.

7	No Redundant Code	Duplicate or unused code is removed	Yes Unnecessary and duplicate code is minimized.
8	Error Handling	Exceptions and errors are ha grac	Yes Input validation and error handling are implemented for important operations.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Tec	Reusability Level (High / Medium / Low)
1	Login Component	React / JavaScript	Login and authentication screens High
2	Navbar Component	React / HTML/CSS	All application pages High
3	Farm Management Module	React / HTML/CSS	Farm related operations High
4	Crop Management Module	JavaScript / Node.js	Crop related operations High
5	API Service Module	Node.js / Express	Communication between frontend and backend High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	**5**	**Project files are organized into logical modules and folders.**
Readability	**5**	**Meaningful names and consistent coding style are used.**
Reusability	**4**	**Common components and modules are reused across the application.**
Documentation / Comments	**4**	**Important functions and modules are documented.**

Overall Score	**5**	**The project follows a structured and maintainable coding approach.**
